About Me

I am a revenue-focused **Digital Marketing Specialist** with hands-on experience in **e-commerce growth, Meta/Facebook advertising support, social media marketing, creative strategy, lead generation, sales funnel support, and AI-assisted workflows**. My strength is not just creating content or graphics. I understand how **ads, offers, creatives, customer inquiries, follow-ups, and tracking** work together to generate business results.

Core Positioning

I help businesses turn attention into inquiries, and inquiries into sales.

Best Fit Roles

- Digital Marketing Specialist
- E-commerce Marketing Assistant
- Meta Ads Assistant
- Social Media Marketing Specialist
- Marketing Operations Assistant
- Creative Strategist Assistant
- Lead Generation Assistant
- Marketing VA for E-commerce Brands

Core Skills & Capabilities

Digital Marketing

- Meta/Facebook Ads support
- Lead generation
- E-commerce marketing
- Social media marketing
- Campaign planning support
- Offer positioning
- Local business marketing
- Direct-response marketing

Creative Strategy

- Ad angles
- Hooks and captions
- Static ad creatives
- Short-form video concepts
- Product creative coordination
- Canva graphics
- Reels/TikTok content planning
- Screen-on-text content ideas

Sales Funnel Support

- Messenger sales scripts
- Customer inquiry handling support
- Objection handling scripts
- Lead qualification
- Follow-up flows
- CRM-style tagging
- Customer journey improvement

Performance Tracker

- Sales tracker
- Ad spend tracker
- Product launch tracker
- Campaign status tracker
- Lead tracker
- Weekly performance notes
- KPI reporting support

Case Study: Prohub E-commerce

Project Title: E-commerce Product Launch & Campaign Tracking System

Business Type: E-commerce / direct-response product testing company

Role: E-commerce Marketing & Creative Operations Specialist / Marketing Lead

Main Goal Support the testing, tracking, and scaling preparation of multiple e-commerce products through structured workflows covering product research, creative strategy, Messenger sales systems, ad launch/testing, and performance tracking.

Business Challenge The company needed a structured way to test many products, organize creative assets, track product launch status, monitor campaign performance, identify winning products, and reduce operational confusion across multiple teams.

What I Did

- Supported a multi-phase e-commerce product launch workflow from product research to creative strategy, ad testing, and scaling preparation.
- Helped organize product trackers, campaign status, creative links, raw assets, testing progress, and product movement.
- Produced and coordinated ad creative assets for multiple product categories.
- Helped track product testing outcomes such as killed products, reruns, ready-to-run products, and winning/scaling products.
- Supported campaign monitoring using gross sales, orders, ad spend, and ROAS data.
- Helped maintain ad spend/funding trackers to monitor balances, top-up needs, billing thresholds, and campaign funding risk.
- Coordinated with product strategists, graphic artists, video editors, copywriters, and campaign teams.

Key Results From Tracker

Metric	Result
Tracked E-commerce Gross Sales	₱32.1M+
Tracked Orders	60K+
Tracked Ad Spend	₱7M+
Blended ROAS	3.45x
Product Entries Tracked	300+
Creative/Product Assignments	100+

Workflow Supported

Product Research → Creative Strategy → Messenger Sales System → Ad Launch & Testing → Winning Product Tracking → Scaling Preparation

What This Shows

This project shows my ability to support high-volume e-commerce marketing operations, organize product launch workflows, coordinate creative assets, monitor campaign data, and connect marketing execution with revenue tracking.

Overview of Product Tracker List

Sample Adspend + Order + ROAS (Gen Merch)

DATE	ORDERS	Gross Sales	Ad Spent	ROAS
August	9,883	4,795,720	1,267,982.54	3.78
September	5,715	2,887,420	994,303.13	2.90

Sample Adspend + Order + ROAS (Agriculture)

DATE	ORDERS	Gross Sales	Ad Spent	ROAS
August	775	365,436	88,622.55	4.12
September	3,546	1,803,672	547,920.79	3.29

Case Study: AOP Electronics Center

Project Title: Local E-bike Battery Lead Generation & Sales Funnel Support

Business Type: Local e-bike battery shop with home service installation

Target Areas: Cabuyao, Calamba, Santa Rosa, Biñan, and nearby Laguna areas

Main Goal E-bike battery replacement with home service, free installation, warranty, COD, and physical shop credibility.

Business Challenge Generate qualified Messenger inquiries and battery sales from local e-bike owners using Facebook marketing, lead generation, offer positioning, and sales follow-up support.

What I did

- Created Facebook marketing and lead generation angles for local e-bike battery buyers.
- Developed ad messaging focused on home service, free installation, COD, warranty, stock availability, and physical shop trust.
- Helped improve customer reply scripts for Messenger inquiries.
- Supported lead qualification based on location, battery type, budget, and urgency.
- Created objection-handling messages for common concerns like “mahal,” “may mas mura,” “wala pang budget,” and “available ba COD?”
- Helped build follow-up systems for warm leads and end-of-month budget follow-ups.
- Supported tracking of sales, ad spend, campaign results, inquiries, and performance patterns.
- Worked with CSR/closing support to improve response quality and conversion from inquiries to booked installations.
- Key Result

Key Results

Metrics

Results

Gross Sales Proof	₱120K+
Main Channel	Facebook / Messenger
Main Offer Angle	Home service + free installation + warranty + COD
Target Market	Local e-bike owners

Common Objections Handled

Objections

Response Angle

Mahal	Emphasize brand, new battery, warranty, installation, shop legitimacy, and after-sales support.
May mas mura	Position quality, warranty, and physical shop trust against cheaper but risky options.
Wala pang budget	Offer reservation/follow-up and end of month reminder.
Available ba COD?	Confirm COD and clarify delivery fee/install inclusion.
Available sa area ko?	Qualify location and schedule home service availability.

What this Shows

This project shows my ability to connect local ads, offer strategy, Messenger sales, lead qualification, follow-up systems, and performance tracking into one practical sales process.

Example Offer Positioning

"May kasama na pong home service, free installation, warranty, and COD. May physical shop din po kami kaya madali kaming balikan if may concern."

Case Study: Local Gym Marketing Support

Project Title: Local Gym Facebook Content & Beginner Marketing Support

Business Type: Budget local gym / community gym

Main Goal Help improve local visibility, attract beginner gymgoers, and support Facebook page content through posters, Reels ideas, captions, and beginner-friendly positioning.

Business Challenge

Generate qualified Messenger inquiries and battery sales from local e-bike owners using Facebook marketing, lead generation, offer positioning, and sales follow-up support.

What I did

- Created content ideas for Facebook posts, Reels, and gym awareness.
- Developed screen-on-text hooks for short-form videos.
- Created poster concepts highlighting affordability and beginner confidence.
- Helped position the gym as budget-friendly and accessible for nearby residents.
- Suggested basic tracking ideas for walk-ins coming from Facebook posts or ads.

Example Marketing Angles

- “Pinakamura sa area”
- Beginner-friendly gym
- Community gym
- Affordable walk-in and monthly rates
- No intimidation, just consistency
- Start simple, build discipline

What this Shows

This project shows local business content planning, community-based marketing, beginner positioning, and practical offer communication.

How I Use AI in Marketing Workflows

- *Ad angle generation*
- *Hook and caption writing*
- *Customer script improvement*
- *Objection-handling drafts*
- *Product research support*
- *Competitor research summaries*
- *Content calendar creation*
- *Report drafting*
- *Workflow documentation*
- *Creative testing ideas*
- *Proposal writing*
- *Outreach personalization*

 Claude ChatGPT

- ***AI writing and productivity tools***
- ***AI-assisted workflow planning***
- ***AI-supported content ideation***

What this Shows

This shows that I can work faster, organize marketing tasks better, and use AI to improve output speed without depending on generic copy.

Role-Ready Task Coverage

Marketing Execution

- *Content planning*
- *Posting support*
- *Captions and hooks*
- *Creative briefs*
- *Campaign preparation*
- *Page improvement*
- *Offer positioning*

Meta Ads Support

- *Campaign monitoring*
- *Creative testing support*
- *Ad copy and angle ideas*
- *Lead quality observation*
- *Budget/ad spend tracking*
- *Basic performance reporting*

Sales Support

- *Messenger sales scripts*
- *Follow-up flows*
- *Objection handling*
- *Lead qualification*
- *CRM tagging*
- *Booked/completed tracking*

E-commerce Support

- *Product research*
- *Product launch tracking*
- *Offer comparison*
- *Sales tracker maintenance*
- *Competitor review*
- *Campaign result tracking*

Creative Support

- *Canva graphics*
- *Product ad creatives*
- *Poster layouts*
- *Short-form video ideas*
- *CapCut editing support*
- *Reel hooks*
- *Thumbnail concepts*

Reporting

- *Weekly performance summaries*
- *KPI snapshots*
- *Tracker cleanup*
- *Campaign notes*
- *Next-action recommendations*

Let's Work Together!

I am available for digital marketing, e-commerce marketing, lead generation, Meta Ads support, content creation, creative strategy, and marketing operations roles.

I can support businesses that need someone who understands both execution and revenue impact — not just posting content, but helping improve the system from attention to inquiry to sale.
